

DIY ROSETTES
by Kit Palaskas

YOU WILL NEED:

- SYA International Abortion Club poster
- Cutting knife or scissors
- Ruler
- Pin back component (for the back of the finished rosette)
- Hot glue gun

STEP 1

Cut the borders off the poster. Then choose 2 motifs from the artwork to cut out - these will form the front and back central elements of your rosette.

STEP 2

Concertina fold the two diamond borders, using the points of the diamonds as guides for where to fold.

STEP 3

Overlap the ends of the two concertina pieces and fix in place with hot glue.

STEP 4

Repeat on the other side to create a ring with the concertina pieces

STEP 5

To make the rosette tails, cut pointed tips into one end of each quilted border. You can trim the strips down if you want shorter tails

STEP 6

With your hot glue gun, rosette tails, and one of the motifs you cut out earlier ready, fold the concertina ring flat and

gather the folds towards the center to create the rosette “ruffles”, with the back side facing up. Squeeze hot glue onto the front of the rosette tails and stick them onto the back, then glue the motif on top. The hot glue should secure the ring in place sturdily. This step is a little fiddly so take your time! Hot glue the pin back on as well.

STEP 7

To finish, turn the rosette over and hot glue the second motif to the front.

You can use other motifs from the poster to create more badges, just glue pins onto the back!

YOU DID IT!

You can use other motifs from the poster to create more badges, just glue pins onto the back!
